Hello Nunn Better! clients. We hope the first newsletter of the summer finds everyone cool and safe.

This is a reminder to plan ahead and make your reservations as soon as possible for those summer vacations and holiday plans. We want to be able to accommodate everyone's needs and that is made through timely planning! If Fluffy can't go with you we want to take care of him/her for you!

OUR MISSION

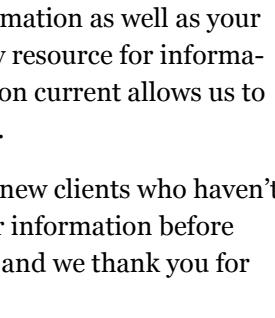

Keep your pets cool with plenty of available drinking water this summer and remember **never** to leave them unattended in cars, regardless of temperatures. For more information regarding animal rules and regulations check out [Pima Animal Care Center's](#) Web site.

MARKETPLACE SPECIAL OF THE MONTH!

\$1.00 off each pet ID tag!

It is always crucial, especially during holiday and vacation seasons, that your pets have proper identification. This includes contact and/or medical information if they get lost. Take this opportunity to stock up on an extra ID tag — or buy a new one for each member of your pack! This ID tag, worn in addition to their other tag, will have your pet's name and the Nunn Better! logo on it. This will allow us to become a visible resource for contact if your pet is found by a helpful stranger. Click on the kitty photo (ABOVE) to be directed to the [online marketplace](#) and check out all three ID tag shapes to choose from. Meow!

INFO UPDATE

As mentioned in our previous letter, we would like to invite everyone to update (or create) a user profile which allows you to store and update your information as well as your pets. Both are essential for us at Nunn Better! as it is our primary resource for information in tandem with your contracts. Helping us keep all information current allows us to take better care of your home and furry, scaly, or feathered family.

All existing clients have an account that has been initiated; brand new clients who haven't used our services may be in transition, waiting for us to enter your information before you can log in to your profile. This will take between 24-72 hours and we thank you for being patient.

At this time please go to the [Nunn Better! Pet Care](#) Web site. This link will take you straight to Account Log In. From there, enter the email address that you use to communicate with us, as the **user id**. Next, use nunnbetter5125 as your **password**. This will allow you to log into your personal account, see current information for you and your pets, and change it as necessary. These changes will take place immediately and it takes no more than five minutes to make sure everything is up-to-date. If you have problems doing this, please email info@nunnbetterpetcare.com.

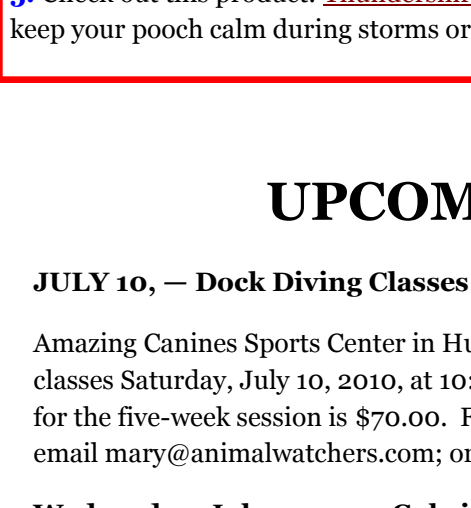

Thank you for supporting Nunn Better Pet Care and helping us be the best at our profession!

Doggone Good Summer Reading

Not many of us can sit down and enjoy a good book while lounging in the backyard with our pooches (or cats, or ferrets, or tortoises), but if you can, there are some great dog-themed books out there!

We have two great picks this month for fun, summer reading.

For kids: *Salty Dog* is a book by Gloria Rand. This book was on the American Bestseller "Pick of the

Lists." It is based on a true story and illustrates the boy-dog relationship, with a nautical theme to it.

For adults: Not only an interesting blog by the same name, but also a captivating, quick, and easy read: check out *The Daily Coyote* by Shreve Stockton. The blog can be found at thedailycoyote.net.

If this isn't exactly the dog book you might have been thinking of (since coyotes aren't the same species as the domestic dog), *Marley and Me* will be a huge hit with young adult and adult age groups.

Whoa partner! Hold your horses animal friends, we will recommend great literary finds showcasing many other creatures too! So stay tuned for next month's newsletter.

SURVIVING FIREWORKS:

1. If you go to see a firework display, leave your dog at home.
2. Reinforcing comfort through fear is a myth: if they hear a loud noise and want to be held, hold 'em!
3. Sound therapy: Lisa Spector, at [Through A Dog's Ear](#), is an expert on this subject.
4. Fireworks can be set off anywhere — a family picnic or BBQ for example — so keep your dog on a leash in order to keep them from running away if spooked.
5. Check out this product: [Thundershirt](#). Thundershirt (tm) is an anti-anxiety wrap to help keep your pooch calm during storms or other anxiety-provoking events.
